

Rachel Wong

Zeroseven Brisbane

January 20 - November 20

Front-end Developer

- Built responsive, WCAG 2.0-compliant interface components (widgets) for client websites, landing pages using **Javascript (ES6), JQuery, LESS, HTML5**.
- Troubleshooted and optimised widgets to design specifications, SEO requirements using **ASP.NET MVC5 Razor views** and **Kentico & Umbraco CMS** macro expressions.
- Under the directions of project manager and senior developer, I worked with clients during **face-to-face training sessions** and wrote **supporting documentation** to help their staff become confident in leveraging Kentico, Umbraco CMS functionalities to meet their business and marketing needs.
- Built browser-compatible **email newsletters** using the MJML framework, HTML5 and CSS3.

Completed role and projects in November to attend to sudden family bereavement.

Upskilling - Coder Academy

February 19 - July 19

Full-stack Web Developer

- Dedicated 6 months to update current full-stack web development technologies, problem solving skills and reinforce understanding of programming fundamentals. Gained confidence in pair programming with other developers, understanding of foundation software development methodologies, and writing for documentation.

Ruby - Team project developing terminal arcade game

Ruby on Rails - Two-sided non-profit marketplace for Queensland Music Education

Javascript (MERN) - A full web application to showcase Coder Academy graduates.

Department of Transport & Main Roads

September 17 - October 18

Data & Systems Analyst (Ministerial and Executive Services)

- Produced **data analytical reports** measuring departmental performance drawn from IBM Cognos Analytics for Minister Mark Bailey's office and senior leadership team.
- Developed and launched internal-facing Sharepoint 2013 website using **HTML5, CSS3, Javascript** to deliver procedural advice on drafting correspondence, briefing for approval by the offices of Minister Mark Bailey and Director-General.
- Provided round-the-clock **technical support** on department's document tracking system (IBM Lotus Notes) to over 7000 departmental staff across Queensland.
- Written **technical documentation** and department-wide communiques including over 20 how-to guides to train staff on Sharepoint website maintenance, Google Analytics dashboard and proprietary DocTrak system troubleshooting.

Department of Transport & Main Roads

September 16 - September 17

Support Officer (Legislation Services)

- Redesigned the department's Sharepoint 2013 intranet website providing guidance on parliamentary processes and formal legislative delegations using **HTML5, CSS3**.
- Provided **editorial drafting and proofreading services** to policy officers progressing legal documents, formal memoranda and briefings for approval by Director-General.
