Flip Insurance, an HCF Insurance company

September 23 - May 26

Front-end Developer

- Drove upwards trending insurance sales growth since 2023 by owning purchase journey iterations, product experimentations across web (**React**) and mobile (**Flutter**) in close collaboration with Product, Growth and Design.
- Received positive customer feedback and improved NPS scores from expanding foundational user experience including a rebuild of a mobile-first insurance claims submission flow, QR-code driven registration, mobile push notifications & third party integrations.
- Owned migration from legacy Webpack to **Vite**, updated dependencies and patched vulnerabilities to maintain consistent uptime across four customer-facing and operational portals.
- Applied AI-assisted workflows using **Claude Code** that accelerated feature delivery, guided meaningful refactoring, and established sensible code quality guardrails.

Yabbr.io

October 22 - June 23

Front-end Developer

- Revamped UI across the core product suite, improving usability and consistency of the omnichannel chat platform and customer portal.
- Migrated application from Vue 2 to Vue 3, updating dependencies and stabilising the codebase for ongoing development.
- Collaborated with Product Design to triage and deliver feature updates that addressed customer enquiries and usability issues.
- Built greenfield UI for CRM functionality, enabling businesses to manage customer data and interactions across communication channels.

Dye & Durham Australia, formerly GlobalX

July 21 - August 22

Junior Software Developer

- Developed a cross-platform Flutter interface for a B2B document verification service supporting multiple government-issued document types.
- Collaborated with stakeholders through agile ceremonies to understand requirements and prioritise feature delivery.
- Delivered bug fixes and incremental features within a microservices-based cloud environment.
- Contributed to UX design and wireframing alongside Product and development teams.

Experience *continued*

Zeroseven Digital Agency

January 20 - November 20

Front-end Developer

- Built responsive, WCAG 2.0-compliant interface components (widgets) for client websites, landing pages using **Javascript (ES6), JQuery, LESS, HTML5**.
- Troubleshot and optimised widgets to design specifications, SEO requirements using **ASP.NET MVC5 Razor views** and **Kentico & Umbraco CMS** macro expressions.
- Under the directions of project manager and senior developer, I worked with clients during **face-to-face training sessions** and wrote **supporting documentation** to help their staff become confident in leveraging **Umbraco** functionalities to meet their business and marketing needs.
- Built browser-compatible email newsletters using the **MJML** framework, **HTML5** and **CSS3**.

Department of Transport & Main Roads

September 17 - October 18

Data & Systems Analyst (Ministerial and Executive Services)

- Produced **data analytical reports** measuring departmental performance drawn from IBM Cognos Analytics for the ministerial office and senior leadership team.
- Developed and launched internal-facing Sharepoint 2013 website using **HTML5, CSS3, Javascript** to deliver procedural advice on drafting correspondence.
- Provided round-the-clock **technical support** on department's document tracking system (IBM Lotus Notes) to over 7000 departmental staff across Queensland.
- Written **technical documentation** including over 20 how-to guides to train staff on Sharepoint website maintenance, Google Analytics dashboard.

Support Officer (Legislation Services)

September 16 - September 17

- Redesigned the department's Sharepoint 2013 intranet website providing guidance on parliamentary processes and formal legislative delegations using **HTML5, CSS3**.
- Provided **editorial drafting and proofreading services** to policy officers progressing legal documents, formal memoranda and briefings for approval by Director-General.

Department of Justice & Attorney-General

March 14 - August 16

Court Services Officer

- Delivered **technical support** to daily Supreme and District Court trials and hearings including configuring live video conferencing with prison facilities, telephone conferences for witness cross-examination.
- Provided **editorial support**, sealing of court grants, and court listing management for Corporations Court and Deputy Registrar (Estates Administration)
- Wrote **job manuals, role descriptions and standardised learning resources** for estate administration matters for A02 level staff in Brisbane Courts Registry.
